

## Sports Meeting in My Eyes

On November 11, 2009, our school held the sports meeting. It was rainy and cold, however, we were in high spirits. The opening ceremony offered splendid programs with everybody on the stage in good fettle. A number of dance programs and talented shows were also cheered by students and teachers who were at the event. After the wonderful ceremony, a gunshot sounded the start of the fierce competition with 100-meter race. Athletes were fighting courageously in the track and field events while spectators were cheering ardently in the auditorium. It was a scene of great enthusiasm.

During the competition, we saw many touching scenes that made a

deep impression on us. For example, two girls from different departments ran in the 5000-metre race, hand in hand, they were falling behind others, but they never gave up; they didn't know each other, but they seemed to be twin sisters. We know that the most important thing in the sports meeting is not the accomplishments we achieve, but the spirit of friendship and unity we experience.

This sports meeting achieved very good results: every department was a great success; some players even broke school records and created amazing miracles. Bad weather didn't make us depressed, because we are the energetic teenagers, brutal competition didn't divide us, because we know we are a family, we are siblings. At last, let's hope the next sports meeting will be even more wonderful!
